

STOP Holbrook TRASH TRANSFER STATION!

**NO WAY TLA!
Take your TRASH and GO AWAY!**

The Town of Holbrook is approving a 1000 ton per day trash project on the Holbrook/Randolph line. Trash trucked in and out of Holbrook daily through the streets of our neighborhoods.

FACTS

- o 240+ trash trucks daily (37 during AM/PM peak hours), including 18-wheelers
- o This area boasts higher accident rates than state average
- o Property is contaminated with multiple toxic chemicals from:
 - o Former Baird & McGuire site (14th ranked US Superfund Site)
 - o Holbrook Chemical Company
- o 37% of the building will reside on flood plain; Area routinely floods
- o Trash will come from all over the state

WHAT WE CAN DO NOW

- o Get involved! Stop the regional trash transfer station in Holbrook!
- o Protect our property values, public health & safety, and the environment.
- o Stop noise, odor, air and vermin pollution from coming into our homes.
- o Attend meetings in Holbrook to voice concerns
- o Contact town and state officials
- o Talk to your neighbors and share information

**This is an urgent quality of life situation! There is no NEED for this project.
It is the Wrong Project in the Wrong Location!**
